SHAPING TECHNOLOGY FOR ALL

Global Telco AI Alliance

Introducing "Syntelligence"

syntelligence

A joint venture to be formed by

Subject to customary regulatory approvals

There's No Business Like the Telco Business

In the Global Telco AI Alliance leading mobile operators (DT group with T-Mobile US, SK Telecom, singtel, e&, and Softbank), serving 1.2 billion customers globally founded an alliance and find synergies.

At MWC 2025 we reveal the first initiative of the Alliance: "Syntelligence". A joint venture to be formed subject to customary regulatory approvals.

We combine Synergy, Telecommunications and Intelligence for AI powered solutions that will create telco-tuned experiences.

Key facts

- **Telco specific adaption** – telco applications work better if powered by telco tuned AI
- **Advanced multilingual capabilities** – enhanced solutions across languages
- **Multi-tiered model architecture** – deploying the right models for the right causes
- **Agentic capabilities** – solutions that can reason and drive actions
- **Global efficiency** – multiple time zoned users mean investments are amortized over 24h
- **Secure scale** – potential impact on 1.2bn customers and without data risk
